COBA ENTERPRISE HONG KONG LTD.

INTRODUCTION

Coba Hong Kong was founded in 1989 and represents many manufacturers and their product lines from and to the Far East.

In the passed years Coba HK has established contact to manufacturers in the region, especially Japan, Taiwan, Korea, Singapore, Malaysia, Indonesia, Hong Kong and China.

Products of good quality made in the Far East at low price unfortunately means that orders for large quantities and lead times are required by the manufacturers. It has to be taken into consideration that the manufacturers generally have the problem that, as yet, nobody holds stock of their products, which is a handicap when low quantities are needed.

Use this linecard as a guide to a cross section of selected products and their manufacturers.

Allow us to prove our ability by sending us your specific enquiries either by phone, fax or E-Mail.

Should any questions arise, please do not hesitate to contact us.

You can rely on our prompt attention, it would be a pleasure to hear from you.
